

Introducing

Craft's Decor Kit

“Customizable home accessory to match any holiday.”

TARGET MARKET:

- People in nursing homes/rehabilitation centers.
- Creative/artists who may need inspirations.
- Crafters/decorators.

FEATURES:

- Easy to use
- Portable
- Great tool for creativity/learning

PATENT INFORMATION:

Patent pending.

SUMMARY:

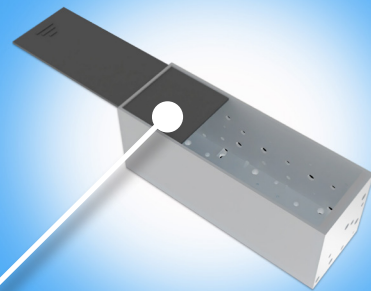

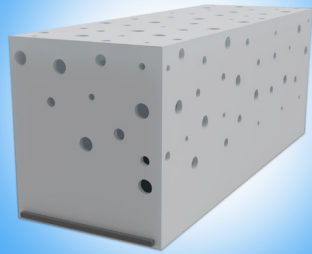

This is a crafting invention and a decorative item. Suitable for every season and any special event. This has many possibilities in quite a few areas... such as the semi/blind people can learn shapes, textures, colors and have fun while using this kit: it can be helpful for rehabilitation purposes say for some who has dexterity problems and again it is very creative friendly too.

This kit comes with different items made with recycled materials for the most part-like plastics, used fabrics, and wood.

This item comes in small, medium, and large sizes. This activity is designed for supervised children aged four and older, as well as adults.

This works with little effort but with holes around the body unit, in this holes you place your parts and pieces to create a decorative piece. The hatch allows the parts and pieces to be stored together. No more lost items or extra storage space needed.

About the Developer

It was around Halloween 2018, Tammy was going through her craft tote that gave her the idea to invent the Craft's Decor kit. Tammy contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that he may see success with this great idea and turn it into a real product. He is actively seeking a company that would have an interest in licensing the product for royalty. Working with Mars Rising Network, this essential new design concept was refined and prepared to be presented as a commercial product.
